[redacted] has recently been discussing with us a most interesting proposal relating to the re-establishment of contact with some of our wartime associates, many of whom served us well but received little recognition. We are most enthusiastic about this proposition and believe that the VSS is the proper organization to handle it. We are prepared to assist in any manner that we can.

I have suggested to [redacted] that he discuss this entire matter with you because I believe that you could make a very great contribution if you were willing to do so. I would suggest that you give [redacted] a ring and arrange to see him at your convenience.
